

Naboo diffuser

New

 Collection: Naboo

Designed for headboards or relaxation areas, the Naboo collection offers a modular approach to lighting comfort. Available in several versions — with or without an adjustable spotlight, with diffuser or reflector — it adapts to all needs in terms of use and atmosphere. A soft, focused, or indirect light, depending on the chosen configuration.

Each model features built-in, discreet, and intuitive switches, providing independent control of the sources. Its circular brushed brass design, with clean lines, combines contemporary elegance and functionality.

Base-mounted or recessed version.
